

# 10 YEARS FROM NOW, YOU'D WISH YOU STARTED TODAY

The longer we wait to act on climate change, the harder it will be on our economy. Climate change means unpredictable weather patterns, increased unemployment and rampant natural disasters. We have to **act now** before it's too late.

Visit [www.adaptation-undp.org](http://www.adaptation-undp.org) and <http://ecu.gov.dm> for more information on how you can make a difference.
